

Po' Folks

Nappy Roots

All my life been po' but it really don't matter no mo'
And they wonder why we act this way, Nappy Boys gon' be okay
All my life been po' but it really don't matter no mo'
And they wonder why we act this way, Nappy Roots gon' be okay, okay We came in the game, plain ya see
Average man when the rest was ashamed to be
Nappy head and all, ain't no changin' me So rough it was, downright wrong I tell ya
Nobody never gave us nothin' but tough time and made us somethin'
Different stretch of road, new somethin' to see
Every state on the map, a different somethin' to eat Daps and handshakes, it meant nuttin' for real
Everybody makin' a killin' man, showin' no feelin's
Walkin' off collectin' pay, it's the way of the world
Can't change it, so I guess I'm gon' pray for the world Sometimes I ask myself, was I made for the world?
I scream this to you, and I say it to the world
Nappy then, Nappy now, Nappy for a bit
Knee-deep, head over heels in this country shit All my life been po', but it really don't matter no mo'
And they wonder why we act this way, Nappy Boys gon' be okay
All my life been po', but it really don't matter no mo'
And they wonder why we act this way, Nappy Roots gon' be okay, okay Even though I picture better days
I'm thankful for the chance I got to say amen
The Lord done blessed me with his grace
I wish his days would never end We represent the slums, where we from, we feel they bump
Polish shot off on these presidents, and hard times they go and come
Some take up off, without the chance, to make it at all
Who woulda thought skinny'd be the one that's, makin' this call Lord, help me out, tell me where I went wrong
I'm tryna find a righteous path, although it's, never been long
I gotta do it for my sons, they tellin' me, daddy be strong
We gon' make it through these hard times
Even though they go and they come Ya absolutely right, but somethin' happen to me on last Tuesday night
It's plain as day, man they with this world trade
Naw brave any order but confoldure
Better make it home when nothin' seems to matter
That's when, see, everything can go any which way
They got me fooled, see the henny with the J
Front porch, chillin' broke, country folk, man I'm Nappy with my ways yo All my life been po', but it really
don't matter no mo'
And they wonder why we act this way, Nappy Boys gon' be okay
All my life been po', but it really don't matter no mo'
And they wonder why we act this way, Nappy Roots gon' be okay, okay It's a blessin' we woke up this mornin'
All my colored folk stressin', come let's join hands

Got the folk with depresses of being po' man
Poppa taught me an order, survive for no man
Nappy blossom from the root hence forth we gon' stand
Prophit grew from a juvenile to a grown man
Ya gotta take responsibility for ya own man
Zonin', two blunts a mo'nin, by sunrise sometimes
I love to hear my woman moanin', it's on again
Damn I hope you play this song again
The soul cleansin', the melody just read my end
Not a lot of things but usually just appendin' my lady
Been searchin' bendin' and saw my folks locked in the tenements
And it don't make any sense why children and sentencin'
Broadcastin' from the slums, that's why I'm writin' these sentences
Just lower my income, what go head finish it
All my life been po', but it really don't matter no mo'
And they wonder why we act this way, Nappy Boys gon' be okay
All my life been po', but it really don't matter no mo'
And they wonder why we act this way, Nappy Roots gon' be okay, okay
