Soldiers

35th & Taylor

You say go, then we all go together
You say drink, then we all drink together
You say die, then we all die together
Cause we're brothers and sisters and you're our father

Soldiers do you come, we got nowhere to run
So we'll follow, follow you to the morgue

Someday we'll shout, with false confessions
Left strings, tie us in indiscretion
We only live, to stop your distraction

Cause we're brothers and sisters and you're our father
Soldiers do you come, we go nowhere to run
So we'll follow, follow you to the morgue

Soldiers do you come, we got nowhere to run
So we'll follow, follow you to the morgue
We'll follow you to the morgue
Follow you
