

Hey Darling (Bells Version) [Bonus Track]

Ace of Base

Hey darling
Have to tell 'bout the world
Have to tell you today
Believe me now
Believe me now
You'd better believe in angels
There's no other substitute
We all do that before we're going up in the sky
If your loving is in your money
Know they cannot hug you back
This is the sound of the world
I know, I say, I do, I say
Hey darling
Have I told you 'bout the rest of the world
Hey darling
Why don't you see
You gonna twist and curl
Take a look around
Take a look around
You're going to be burned out
You must blame it on yourself
You're burning your candle both ways
That I've learned from my past
Quench your thirst with memories
There's no point in being stressed
That is the thing I have learned
I've done, I've been, I've seen all that
Hey darling
Have I told you 'bout the rest of the world
Hey darling
Why don't you see
You gonna twist and curl
Take a look around
Hey darling
Have I told you 'bout the rest of the world
Take a look around
Hey darling (ouuh, ooooooh)
Have I told you 'bout the rest of the world (Got to tell you ...)
I'm never gonna change my mind

No, I'm never gonna change my mind
Believe me now
Believe me now
Hey darling
Have I told you 'bout the rest of the world
Hey darling
Why don't you see
You gonna twist and curl (Got to tell you ...)
Hey darling
Hey darling (have to tell you today)
Hey darling (ah uh)
Hey darling (have to tell you ...)
Hey darling (believe me now)
