I've Got Something

Donald Lawrence

I've got something this world can't take away
I've got something this world can't take away
He has given me joy within
His word has blessed blessed me once again and
his word has taken all my fears away
It has brightened my day
Thank you Lord for send your word to brighten my day
I don't care I dont' care what this world has to say

cause I'm gonna keep on I'm determined to keep on speaking God's word everydaty
cause I've got something that this world an't take away
I've got something this world can't take away
no no matter what's they do or say
And And oh I've got something this world can't take away
I've got something this world can't take away
