Freebird Child

Tammy Van Zant

Every moment I remember
Thought those days would last
forever
Then one night my strength fell from the skyI can hear your voice beside me
I know it's there to lead and guide me
Give everything just to see you one more time.Chorus:
Where you goin' Freebird Child?
Riding on the southwind over magnolias growing wild
Trying to find your place to land among the stars
Live to dream my Freebird ChildSo many nights so cold and lonely
Sometimes I dream that you still hold me
I loved it when you sang for me my songThrough the years, the words the music
Life's so torn and so confusing
I know your heart, your love in me lives onWhere you goin' Freebird Child?
Riding on the southwind over magnolias growing wild
Trying to find your place to land among the stars
Live to dream my Freebird ChildSolo/InterludeWhere you goin' Freebird Child?
Riding on the southwind over magnolias growing wild
Trying to find your place to land among the stars
Live to dream my Freebird Child
I'll always be your Freebird ChildFly so free . . . Keep the dream
Freebird Child . . . Daddy I'll always be
