

# Back at Belle's

## Small Black

When I came here  
everything was strange  
Wasn't sure I'd  
see you again  
with the act I pulled  
Back at Belle's again  
least for the evening  
Way I was thinking  
It wouldn't be long  
til you came back  
you came back  
again.  
then we'll lay around  
in some madhouse  
laughing at the world outside  
and I'll ask you what  
What made you change  
change your mind age,  
what made you change,  
change your mind? What made you change  
change your mind age,  
what made you change,  
change your mind? Who says I changed it? You came back  
You came back  
You came back  
You came back  
for me  
what made you change,  
change your mind age?  
what made you change,  
change your mind?  
Who says I changed it? Maybe, I'm just thinking about it
