

# I'm a Road Hammer (Reprise)

## The Road Hammers

I'm a road man, a load man, eighteen wheels and a serious plan  
Ain't nothin' gonna go gettin' outta hand while I'm behind the wheel  
I'm on fire, and I'm wired, full of diesel and ready for hire  
I'm buildin' a rollin' empire of blood, sweat and steel I don't waste time, I make time, tearin' a strip off the  
white line  
I'm a professional man, I'm one of a kind, and I know how to bring it in  
I've got a clean slate in five states, and twenty-nine that ain't so great  
Fourteen that'll have to wait, and two I've never been I'm a road hammer, a white-knuckled, steel gear jammer  
Rig jockey, highway slammer, I'm just doin' what I gotta do  
I'm a road hammer, double talkin', CB grammar  
Haul your load from Alabama all the way to Timbuktu I've hauled the left coast, the west coast  
California sun where they're chillin' the most  
Follow 309 Teddy Bears ghost, All the way to New Orleans  
I've been from Thunder Bay, to PA  
All the way down to FLA, and every little town along the way  
There ain't much that I haven't seen I'm a road hammer, a white-knuckled steel gear jammer  
Rig jockey highway slammer, I'm just doin' what I gotta do  
I'm a road hammer, double talkin', CB grammar  
Haul your load from Alabama all the way to Timbuktu Another day, another town  
Diesel up, and hammer down I've got a pimped ride, a pretty bride  
Four little babies and my hound reside  
Back in the hills on the mountain side  
South of the river bend  
I've got my cell phone, she's on roam  
Sweet little thing wants to get it on  
She says I left somethin' turned on at home  
She can't wait 'til I'm back again I'm a road hammer, a white-knuckled steel gear jammer  
Rig jockey highway slammer, I'm just doin' what I gotta do  
I'm a road hammer, double talkin', CB grammar  
Haul your load from Alabama all the way to Timbuktu I'm a road hammer, a white-knuckled steel gear jammer  
Rig jockey highway slammer, I'm just doin' what I gotta do  
I'm a road hammer, double talkin', CB grammar  
Haul your load from Alabama all the way to Timbuktu
