Even I Don't Know

Dropline

The minute we changed into somethin' different
The moment our words became somethin' written
We're losin' ourselves while we build this image
That doesn't look quite like me'Cause even I don't know
What to say
'Cause even I don't know
What to do now
When I belong to you
I find that still sometimes I thinkIt seems that a page from the news was torn out
A story was told that we never hear about
Just like the rules that we learn how to say
But never are sure if they matter'Cause even I don't know
What to say
'Cause even I don't know
What to do now
I belong to you
I find that still sometimes I thinkI'm fallin'
Seasons change
I'm fallin'
Seasons change
I'm fallin'
But that won't change me,
Yeah, oh'Cause even I don't know
What to say (yeah)
'Cause even I don't know
What to do now
(3x)But I belong to you
I find that still sometimes I think
I belong to you
I find but still sometimes I think
