

# Cavern

## BAASIK

Your time is near, the mission's clear  
It's later than we think  
Before you slip into the night  
You'll want something to drinkSteal away before the dawn  
And bring us back good news  
But if you've tread in primal soup  
Please wipe it from your shoesJust then a porthole pirate scoured  
The evening with his cry  
And sanctuary bugs deprived  
A monkey of its thighA dust arose and clogged my nose  
Before I could blink twice  
Despite this stuff that bubbled up  
I gave some last advice"The flesh from Satan's dogs will make  
The rudiments of gruel  
Deduct the carrots from your pay  
You worthless swampy fool"Exploding then through fields and fen  
And swimming in the mire  
The septic maiden's gargoyle tooth  
Demented me with fireI drifted where the current chose  
Afloat upon my back  
And if perchance a newt slimed by  
I'd stuff it in my sackSoon I felt a bubble form  
Somewhere below my skin  
But with handy spine of hedgehog  
I removed the force withinSuzie then removed her mask  
And caused a mighty stir  
The angry mob responded  
Taking turns at grabbing herThe foggy cavern's musty grime  
Appeared within my palm  
I snatched Rick's fork to scrape it off  
With deadly icy calmThe crowd meanwhile had taken Sue  
And used her like a rag  
To mop the slime from where the slug  
Had slithered with the bagIn summing up, the moral seems  
A little bit obscureGive the director a serpent deflector  
A mudrat detector, a ribbon reflector  
A cushion convector, a pitcher of nectar  
A virile dissector, a hormone collectorGive the director a serpent deflector  
A mudrat detector, a ribbon reflector

A cushion convector, a pitcher of nectar  
A virile dissector, aGive the director a serpent deflector  
A mudrat detector, a ribbon reflector  
A cushion convector, a pitcher of nectar  
A virile dissector, aGive the director a serpent deflector  
A mudrat detector, a ribbon reflector  
A cushion convector, a pitcher of nectar  
A virile dissector, a hormone collectorWhatever you do  
Take care of your shoes
