Let It Die

Three Days Grace

We had fire in our eyes in the beginning
I never felt so alive in the beginning you
You blame me but
It's not fair when you say that I didn't try
I just don't want to hear it anymoreI swear, I never meant to let it die
I just don't care about you anymore
It's not fair when you say that I didn't try
I just don't care about you anymoreWe had time on our side in the beginning
We, we had nothing to hide in the beginning
You, you blame me but
It's not fair when you say that I didn't try
I just don't want to hear it anymoreI swear, I never meant to let it die
I just don't care about you anymore
It's not fair when you say that I didn't try
I just don't care about you anymoreYou say that I didn't try
You say that I didn't try
You say that I didn't tryI swear, I never meant to let it die
I just don't care about you anymore
It's not fair when you say that I didn't try
I just don't care about you anymoreI just don't care about you anymore
I just don't care about you anymore
I just don't care about you anymore
I just don't care about you anymore
