

# She Said

## Take That

My love was filled with trouble  
With indecision, therapy and pain  
You know that my love  
It was going no where  
It would have driven any normal man insane Oh but then she said she wanted to dance  
She said she wanted to move  
She said she wanted a good time  
Girl, I think I love you My love, as bad as fast food  
As low as two steps in a canvas hat  
You know that my love was one long hangover  
Ain't got no houses or no money or no land Oh but then she said she wanted to dance  
She said she wanted to move  
She said she wanted a good time  
Girl, I think I love you Shake it  
(Shake it)  
Everybody now shake it  
(Shake it)  
Everybody just step to the right  
Jump up turn around and shake it  
(Shake it) Everybody now boogie  
Everybody now boogie  
Everybody put your hands in the air  
Turn around everybody let's boogie Oh my life, was filled with trouble  
With indecision, therapy and pain  
You know that my love  
It was going no where  
It would have driven any normal man insane Oh but then she said she wanted to dance  
She said she wanted to move  
She said she wanted a good time  
Girl, I think I love you She said she wanted to dance  
She said she wanted to move  
She said she wanted a good time  
Girl, I think I love you
