

# Down Poison

## 3 Doors Down

I've dreamed about this sixteen days away  
Now you're here and my head lies  
Besides your body pillowed under mine  
You were poison, spinning round my mind "Welcome to my world", she said  
"Do you feel alive?", she said  
It's all a bad dream  
Spinning in your lonely head  
"Welcome to my world" she said  
Separated world, she stayed  
Separated Down poison  
Down poison Body withered, body died  
Time to take away this life  
Bad enough to die from one  
Not to mention four or five "Welcome to my world", she said  
"Do you feel alive?", she said  
It's all a bad dream  
Spinning in your lonely head  
"Welcome to my world" she said  
Separated world, she stayed  
Separated Down poison  
Down poison  
Down poison  
Down Down poison  
You weren't there for me, I was there for you  
Down poison  
You weren't there for me, I was there for you Down poison  
You weren't there for me, I was there for you  
Down poison  
You weren't there for me, never there for me You wouldn't die for me, I've already died for you  
You wouldn't die for me, I've already died for you  
You wouldn't die for me, I've already died for you  
You wouldn't die, you wouldn't die, you wouldn't die, no "Welcome to my world", she said  
"Do you feel alive?", she said  
It's all a bad dream  
Spinning in your lonely head  
"Welcome to my world" she said  
Separated world, she stayed  
Separated Down poison  
Down poison

Down poison  
Down
