What Is Love?

Mutine

Maybe I am foolishly in love with someone that is
Not exactly on the same page, that I am on
Well all my friends keep telling me stop walking round so blindly
But when he calls they're not around to ever remind meMaybe this isn't love
But if it isn't love then really what is love
Maybe I don't need to know what's really love
'Cause when he's around he's got me feeling some kinda wayMaybe this isn't love
But if it isn't love then really what is love
Maybe I don't need to know what's really love
'Cause when he's around he's got me feeling some kinda wayI guess I kind of notice he don't always act so kindly
But that doesn't stop my hunger, hunger for his heart
Why should I listen to those, who think that I should move on
Maybe what they see as drama, I see more as artMaybe this isn't love
But if it isn't love then really what is love
Maybe I don't need to know what's really love
'Cause when he's around he's got me feeling some kinda wayMaybe this isn't love
But if it isn't love then really what is love
Maybe I don't need to know what's really love
'Cause when he's around he's got me feeling some kinda wayCan't seem to get past how he makes me feel
May not be love but it feels so real
Can't go with what they say must follow my heart
But now is that even being to to meMaybe I'm happy, truly content
Maybe this is as good as it gets
Do I have faith in my confidence
Or an I just thinking all hopelesslyMaybe this isn't love
But if it isn't love then really what is love
Maybe I don't need to know what's really love
'Cause when he's around he's got me feeling some kinda wayMaybe this isn't love
But if it isn't love then really what is love
Maybe I don't need to know what's really love
'Cause when he's around he's got me feeling some kinda wayMaybe this isn't love
But if it isn't love then really what is love
Maybe I don't need to know what's really love
'Cause when he's around he's got me feeling some kinda wayMaybe this isn't love
But if it isn't love then really what is love
Maybe I don't need to know what's really love
'Cause when he's around he's got me feeling some kinda way
