

# Holding On

## Johnny Stimson

Every move that I've made, every inch I've grown  
In my heart, in my soul, you're in my bones  
Wanna feel, wanna feel everything you do  
'Cause at the end of the day, all I need is you

So I keep  
Holding on  
When the world is falling  
Holding on  
When the light is calling  
Holding on  
When forever rolls on through  
I'll be holding onto you

Turn around, take it back to yesterday  
Now I know everthing that I need to say  
You're the words on my lips and the melody  
You're the key to the door that will set me free
