

Never Felt Like This Before

[Shaznay Lewis](#)

Open, baby, you've left me, open now
I'm shattered into a million pieces
Can't stop looking over my shoulder
Just in case you realize just how much you want this
The longer, the sweeter, baby, don't stop it's okay
'Cause I'm down for you not gonna stop 'till you tell me to
I'm into you like a bad ass tune
Tell me how did this happen? I've never known not what to do
I've never felt like this before
Can't say that you don't make me hot
I'm wanting some of what you got, babe
I've never felt like this before
I'm loving every minute of it, don't stop
You are all I ever want
Empty, standing where you've left me cold
Boy, now I'm frozen by a kiss from your lips
Your heart tells me that you're open melted by the answer
I've been waiting to hear
And now that you've told me boy, I can't stop
In a flash I'm all over you, I couldn't stop if you told me to
I'm into you like a bad ass tune
Tell me how did this happen? I've never known not what to do
I've never felt like this before
Can't say that you don't make me hot
I'm wanting some of what you got, babe
I've never felt like this before
I'm loving every minute of it, don't stop
You are all I ever want
Can't hold this down and be cool
Not playing my heart like I'd like, I'm feeling you
So I just get down to the truth
Can nobody do, do me baby like you do
I've never felt like this before
Can't say that you don't make me hot
I'm wanting some of what you got, babe
I've never felt like this before
I'm loving every minute of it, don't stop
You are all I ever want
I've never felt like this before
Can't say that you don't make me hot
I'm wanting some of what you got, babe
I've never felt like this before
I'm loving every minute of it, don't stop
You are all I ever want
