This One's For You

Dima Lancaster

VERSE 1

Think of the words we could say,
Of the little things that go unnoticed
Colors so bright, you won't believe it
And how they keep changing everyday

Staying up all night
Under these endless starlight skies
Our dreams could travel, like burning comets,
For a million miles

PRE-CHORUS 1

Good things just haven't happened yet,
Good things still haven't happened

CHORUS 1

I wonder what you'd say if I
Drew all of the things you do that make me smile
I'd have to use the Earth as canvas,
So it could take a while

I wonder
If you'd say I'm insane with my crazy thoughts
But there's another one that means the most
I wonder what you'd
Say if you knew that darlin',
This one is,
This one's for you

VERSE 2

Think of the morning rain
Think of the sound we could be sharing,
Defeaning silence and the heartbeat
Comforting us again and again

Think of the signs we've missed

On all the roads that lead to this,
Think of all the twists in our story
And let's write down the script

PRE-CHORUS 2

Good things just haven't happened yet,
But they're about to happen

SOLO

CHORUS 3

I wonder what you'd say if I
Flew us to space to see the clouds I'd painted
All the colors that I found when
I looked inside your eyes

I wonder
If you'd say I'm insane with my crazy thoughts
But there's another one that means the most
I wonder what'd
Say if you knew that darlin',
This one is,
This one's for you
