

# Sara

## Triakel

Some spend a lifetime searching for gold  
Crossing the ocean, like in days of old  
And now that I've found you I realize  
That you are forever where my heart lies From sunrise to sunset, oh Sara  
You're as good as it can get, oh Sara  
I keep my promise to come back someday  
Oh Sara, never change I miss the siesta and water so blue  
I dream of the white sands and Sara, of you  
In my heart there's a spirit like a fire it burns  
Watch over our secret until I return From sunrise to sunset, oh Sara  
You're as good as it can get, oh Sara  
I keep my promise to come back someday  
Oh Sara, never change From sunrise to sunset, oh Sara  
You're as good as it can get, oh Sara  
I keep my promise to come back someday  
Oh Sara, never change From sunrise to sunset, oh Sara  
You're as good as it can get, oh Sara  
I keep my promise to come back someday  
Oh Sara, never change
