

# Living With Scars

## Paradise Lost

It's deaths intention  
We pass through the certain awaits  
Upholding the pleasures at hand  
God given traitsLiving with scarsThrough bleak accession  
We task through disaster we face  
In fear of rejection we stand  
God given grace  
To live againTaken by the ones we force  
Without a solitary reason  
It's like solace from the shadeDon't see it any other way  
It's deaths inception we must takeWith dark intention  
A passing the certain awaits  
With holding pleasures  
At hand all that gods given drainedLiving with scars  
Living with scars  
Taken by the ones we force  
Without a solitary reason  
It's like solace from the shadeWithout a solitary reason  
It's like solace from the shade
