

I Got You Babe

Mario Winans

Sometimes in life
You come across a woman
It's just undeniable
And you searched for her so long
If finally hits you in your face
What did you do? Never knew too much about bein' in love
But I'm lettin' you show me
Now I can't do without feeling your touch
Baby, when you hold me Every day's a holiday since you came my way, baby
It's more than I can say you'll forever be my babe All I wanna do is stay in love with you
What about you babe?
I've got you babe
If they ask me, all I wanna is you
So can we make this true?
What about you, babe?
I got you babe
All I wanna do Sometimes it feels like it took
A million years for me to be happy
It's almost like a dream
But your standing right here, looking right at me Every days a holiday since you came my way, baby
Baby, its a game I play
It's more than I can say
You'll forever be my babe All I wanna do is stay in love with you
What about you babe?
I've got you babe
If they ask me, all I wanna is you
So can we make this true?
What about you babe?
I got you babe
All I wanna do I know that this could last forever
If you think we should be together, oh babe
All I want is you baby All I wanna do is stay in love with you
What about you babe?
I've got you babe
If they ask me, all I wanna is you
So can we make this true?
What about you babe?
I got you babe
All I wanna do All I wanna do is stay in love with you

What about you, babe?
I got you, babe
If they ask me, all I wanna is you
So can we make this true?
What about you babe?
I got you babe
All I wanna do
