

England Made Me

Black Box Recorder

I trapped a spider
Underneath the glass
I kept it for a week to see
How long he'd lastHe stared right back of me
He thought that he could win
We played the waiting game
He thought that I'd give inEngland made me
England made meI had a dream last night
That I was drunk
I killed the stranger
And left him in a trunkIn Brighton railway station
It was an unsolved case
A famous murder mystery
People love mysteryEngland made me
England made me
England made me
England made meI need my privacy
I lead a secret life
Sleep with the enemy
Then betray both sidesI traveled all my life
But never got away
From the killing jar
And the garden shutEngland made me
England made me
England made me
England made meEngland made me
England made me
England made me
