## Marcel Duchamp

Try to see myself what goes on  
Make it up myself, I'll never  
Always told my thoughts aloud  
Then another day I shut up  
Back to the sand, doing what you can  
Bound to be gone, danged a loser  
Found out right then they were fed up  
'Cause everybody said to shut up  
Yeah! Thought that you might care what goes on  
Try to say what up? I'm fed up  
Everybody said to shut up  
The last time I told them what up?  
Down with the sun I knew that I was done  
Did it to my self, did it to my self, and then  
All this time I said I've been fed up  
'Cause everybody tells me shut up
