Paradise (feat. U-Jean) [Radio Edit]

Mike Candys

Here I go again
Somewhere between the tide and the sunrise
Is a place called paradise
Follow me my friend
We'll jump off the edge into the twighlight
And I'll meet you there in
ParadiseI could drift away with you beside me
Being with you baby wanna know what this is about
I love your smile under perfect skies
Forget space and time
Welcome to paradise
I don't wanna go to sleep
I just wanna stay in my dream
The stars will light the way to the destination
Come on times are wasting
Won't you follow me nowHere I go again
Somewhere between the tide and the sunrise
Is a place called paradise
Follow me my friend
We'll jump off the edge into the twighlight
And I'll meet you there in
Paradise
Won't you follow me now
