

# Into the Woods

## Diesler

A kitten on fire, a baby in a blender  
Both sound as sweet as a night of surrender  
I know it ain't easy but you do what you can

If your livin' gets wheezy, you can follow this plan  
Put in more than you could ever get out  
I'm tired of the talking, I know what you're about

Now open your mouth, here comes the spoon

You're gonna eat what I give ya and you're gonna like it real good  
I went over the river and into the woods,  
where did I go?

Where a wood burning stream, flows up through the trees  
Like the soul of the hottest kind of lover, I've ever seen

One who lives to choose another fool's dream  
A good shower head and my right hand  
The two best lovers that I ever had

Now if you find you agree with what I just said

You'd better find a new love and let 'em into your head  
I went over the river and into the woods, where did I go?

Where a wood burning stream, flows up through the trees  
Like the soul of the hottest kind of lover, I've ever seen

One who lives to choose another fool's dream
