

# Take Me In

Juanita Bynum

Take me past the outer courts  
    Into the holy place  
    Past the brazen altar  
    Lord, I want to see your face  
    Pass me by the crowds of people  
    The priests who sing your praise  
I hunger and thirst for your righteousness  
    And it's only found one place  
    Take me in to the holy of holies  
    Take me in by the blood of the lamb  
    Take me in to the holy of holies  
Take the coal, cleanse my lips, here I am  
Take the coal, cleanse my lips, here I am  
    Take me past the outer courts  
    Into the holy place  
    Past the brazen altar  
    Lord, I want to see your face  
    Pass me by the crowds of people  
    The priests who sing your praise  
I hunger and thirst for your righteousness  
    And it's only found one place

    Take me in to the holy of holies  
    Take me in by the blood of the lamb  
    Take me in to the holy of holies  
Take the coal, cleanse my lips, here I am  
Take the coal, cleanse my lips, here I am  
    Take me past the outer courts  
    Into the holy place  
    Past the brazen altar  
    Lord, I want to see your face  
    Pass me by the crowds of people  
    The priests who sing your praise  
I hunger and thirst for your righteousness  
    And it's only found one place  
    Take me in to the holy of holies  
    Take me in by the blood of the lamb  
    Take me in to the holy of holies  
Take the coal, cleanse my lips, here I am

Take the coal, cleanse my lips, here I am  
Take the coal, cleanse my lips, here I am
