This Is Christmas (Version 2)

Plus One

They wished upon a star
Three wise men traveled far to see
A babe who was born to be king
A dream in heavens dreamsThat made the prophets words complete
And the angels begin to sing
They looked to the sky, followed the Light
Loves greatest gift had come to us that nightCan you feel the spirit in the air?
Giving hope to people everywhere
Celebrate our Saviors here
This is ChristmasHallelujah's echoing tonight
Now everything will be all right
Celebrate our Saviors here
This is ChristmasI know weve seen some times
When joy has been so hard to find
And life seems to take all our faith
But were dreaming heavens dreamsAnd were finding hope within our hearts
To believe that theres more than we see
We look to the sky, follow the Light
Loves greatest gift has come again tonightCan you feel the spirit in the air?
Giving hope to people everywhere
Celebrate our Saviors here
This is ChristmasHallelujahs echoing tonight
Now everything will be all right
Celebrate our Saviors here
This is ChristmasTheres no greater gift than
The life that you gave
All the hatred, rearrange it
Spread all the love, spread all the loveCan you feel the spirit in the air?
Giving hope to people everywhere
Celebrate our Saviors here
This is ChristmasHallelujahs echoing tonight
Now everything will be all right
Celebrate our Saviors here
This is Christmas
