Little World

Jill Jenson

One more time you will catch up in
You've become old and die from it
Hold my breath and think
I can make it alone
This is a true test of my faith
We found the promises of grace
Fuck the vanity
I can make it alone
Get out, it's my little world
You've got no right to stay
Get out, it's my little world
You've got no right to stay
One more time I will loose my nerve
And drop my personal life
These changes won't change my mind again
You plead with innocence and grief
Just know this problem isn't me
Only ask this once

Can't I make it alone
Get out, it's my little world
You've got no right to stay
Get out, it's my little world
You've got no right to stay
No face is on my god
But true believers call
No face is on my god
But true believers call
Get out, it's my little world
You've got no right to stay
Get out, it's my little world
You've got no right to stay
I'm starting to change my little world
You've got no right to stay
Get out, it's my little world
You've got no right to stay
