

# Take A Message

Remy Shand

How did she fall in love,  
Tired and shaken up ,  
Could it be hangin' around's enough  
No one was foolin' when we're told about the sense and sensibility in movin' on ALL that I see is that we're  
livin' life  
Did you fail when you found that you paid the price,  
Hope it wasn't lost in an honest truce  
The past doesn't break all that we been through  
Every little thing that you did was right  
Who knows what you did on the day you cried endlessly Ooo you cried endlessly Take a message from my love,  
Take a message from my love Take a message  
Take a message from my love, Take a message from my love Take a message  
Take a message from my love, Take a message from my love Take a message  
Take a message from my love, Take a message What, could I say to you, oh, when makin' the waves was left  
unconscious...I didn't mean to tell you why, oh whyyy  
But you harbored all defenses  
And you're makin' it hard to bring that hope back, for you and I ALL that I see is that we're livin' life  
Did you fail when you found that you paid the price,  
Hope it wasn't lost in an honest truce  
The past doesn't break all that we been through  
Every little thing that you did was right  
Who knows what you did on the day you cried endlessly Ooo you cried endlessly Take a message from my love,  
Take a message from my love Take a message  
Take a message from my love, Take a message from my love Take a message  
Take a message from my love, Take a message from my love Take a message  
Take a message from my love, Take a message ALL that I see is that we're livin' in life  
Did you fail when you found that you paid the price  
Hope it wasn't lost in an honest truce  
The past doesn't break all that we been through  
Every little thing that you did was right  
Who knows what you did on the day you cried endlessly ooo you cried endlessly Take a message from my love,  
Take a message from my love Take a message Take a message from my love, Take a message from my love  
Take a message Take a message from my love, Take a message from my love Take a message Take a message  
from my love, Take a message Take a message from my love, Take a message from my love Take a message  
Take a message from my love, Take a message from my love Take a message  
Take a message from my love, Take a message from my love Take a message  
Take a message from my love
