You Want Me

Justin Bieber

Ha
It's Justin.....Bieber
I can take you to a new world, take your problems away
Tell me whatchu' wanna do girl, just come right this way
I don't never need a new girl (no), cause you're here to stay
Lemme show you what I do girl, and you'll never leave
You want me
Girl, you know you want me
You want me, you want me
Girl, you know you want me right (go) right (go)
Right, right
Girl, you know you want me right
And you said that you love me, yeah I said that I love you too
Let you know that you're lovely, flowers for nothing just for you
You know I got you until the whole world ends
You know I got you why don'tcha come and be my girlfriend
Cause you're scared to fall but you won't spread your wings
You know it's hard to fly when you don't try new things
And Imma be the one to make you smile for a minute
Put your head down and get down for a minute

Baby, (baby) this sounds crazy (crazy) thinking bout you (thinking bout you) I just need a...I just need a lady
I can take you to a new world, take your problems away
Tell me whatchu' wanna do girl, just come right this way
I don't never need a new girl, cause you're here to stay
Lemme show you what I do girl, and you'll never leave
You want me
Girl, you know you want me
You want me, you want me
Girl, you know you want me right, right
Right, right
Girl, you know you want me right
I can take you to a new world, take your problems away
Tell me whatchu' wanna do girl, just come right this way
I don't never need a new girl, cause you're here to stay
Lemme show you what I do girl, and you'll never leave
You want me
Girl, you know you want me
You want me, you want me

Girl, you know you want me right, right
Right, right
Girl, you know you want me right
