

# In Spirit Golden

## I Blame Coco

Fall into flames and you won't do it again,  
You've learned a lesson that you've never been taught so.  
Crawl into blame that you will never reclaim  
It is a blessing that you'll never get caught, ohBut underneath we are golden,  
Hold them, we made them.  
Our hearts beat control them  
Too fast,  
too fast for me tonight.I've seen souls in spirit golden  
And I've seen souls in spirit gold  
Now I've cleaned myself from that unsettling light  
It was too bright for me and the love in my life  
But if you capture me I'll be within your sight  
It was too bright for me,  
It was too bright tonight  
It was too bright tonightBefore the insults and post the praise  
You are the subject of a sugarcoat crosshair.  
During the shell shock of a crystal maze  
You are important at your opening funfair.However underneath we are golden  
So hold them we saved them  
Our heartbeats control them  
They're too fast,  
Too fast for me tonight.I've seen souls in spirit golden  
And I've seen souls in spirit gold  
Now I've cleaned myself from that unsettling light  
It was too bright for me and the love in my life  
But if you capture me I'll be within your sight  
It was too bright for me,  
It was too bright tonight  
It was too bright tonightHere by a circus on this moonlit night,  
With the lukewarm light is not too frightening.  
Here by a settle at the starboard side  
If you only vouch for me  
On this golden night,  
on this golden night,  
Oh my burning eyesI see souls in spirit golden  
I see souls in spirit gold  
Now that I've cleaned myself from that unsettling light  
It was too bright for me and the love in my life  
But if you capture me

I'll be within your sight  
It was too bright for me  
It was too bright tonight
