Limbo

Bad Pony

don't turn pages back to fire notary
won't back what you see
yellow
the color of the people friend of mine
all im sorry
running
fastly shaving in kicking in
now and so made yeah

here we are
calling out each other names again
after all
shit that we been trough
i need you i need you

here we are
calling out each other names again
after all
shit that we been trough
i need you i need you

you ain't be falling in my hand
let me from back of the plenty
even now
i take back every word the world said
now that i touch the sun
i won't let you hide of my side

here we are
calling out each other names again
after all
shit that we been trough
i need you i need you

here we are
calling out each other names again
after all
shit that we been trough

i need you i need you
