

# You Took the Words Right Out of My Heart

**Thelonious Monk**

You took the words right out of my heart,  
And it was like a bolt from the blue,  
You took the words right out of my heart,  
When you said "I love you,"  
I stood in a daze for a while.  
For I felt that way too,  
the moment I saw you smile.  
I had the words and you in my heart  
There wasn't room enough for the two,  
You took the words right out of my heart,  
And left only room for you..
