

# From Blue to Red

## Inior

Going back to the box,  
being ruled from flat wide screens,  
wired to the mind we'll drive you away,  
so far away...Chen marrying light  
Fire Perfect Mind  
(something worth to live for, to kill for)  
K'an melting K'un  
Short time to chooseCome to me  
whirl not perceptible  
in nightly perspective:  
don't tell me that now now now it's over.  
Mighty mighty mighty mighty  
grows an incredible will.  
Now I begin to feel:  
tell me that now now here it's coming.  
Mighty lightly mighty brightly  
grows an incredible will.  
Clarity was concealed:Tell me that now now here it's coming.
