

All About You

Melanie C

So you've gotta go
Need to be alone
I thought you
Were my forever home
You've changed
Every lock and password
So we didn't fit
Now I'm over it
I guess love had me a little bit deranged
When you free a caged bird
She's gonna fly
Into the sky-y
(Chorus)
I'm so gone
Never coming back
Moving on
I am over that and I hate to see you
Dress in black but
You never did love anyone but yourself
You in front of me
With your list of things I'll never be
I was yours - hah!
It's funny seeing how you lost me
'Cos it was all about you
It was all about you (x2)
You and yourself
All your misery
Faded history
Look real hard to find a piece of me
You won't
I was just your caged bird
Too scared to fly
But I'm flying tonight
(Chorus)
(It was all about you)
You're what's on your mind
(It was all about you)
You take up all your time
(It was all about you)

You are the first delight
You and yourself
When you free a caged bird
She's gonna fly
Into the sky-y-y-y-y-y
Wo-o-o-o-o-o-o-o-oah
I'm so gone
Never coming back
Moving on
I am over that and I hate to see you
Dress in black but
You never did love anyone but yourself
You in front of me
With your list of things I'll never be
I was yours - hah!
It's funny seeing how you lost me
It was all about you (x2)
