

Intercom

Pedro Gabriel Amaral

The intercom rings
My eardrum buzzes
The window is far
I just heard a carThe mystery man
Camera in his hand
Showed me the tape
A minute of painTo the universe
To all my dearest friends
I wanna say goodbye
Though you wanna say hiYou know I failed you
I admit I meant to
It was all my fault
I proved myself wrongDown here is cool
And I'm not talking about
The weather is hot
The year is shortI'm playing with a toy
A minotaur toy
He's got both horns
And I can say whatever I wantThank you, thank you
Thanks a lot
