I heard you fuck with them niggas that like to fuck with them snitches

What you got in your pockets, I see you holdin' them figures

I hope you don't blow it all cause that would just be ridiculous

Think I'm addicted to ballin', think I'm addicted to cash

If we leave here tonight, girl I murder that ass

Don't be all in my section if you ain't talkin' 'bout fuckin'
We ain't talkin' 'bout fuckin' then we ain't talkin' bout nothin'
See I came with my niggas, we came to fuck up a chick
This some real shit to give, you better show some respect
My two-door's exotic, I blow my money with style
I got some young niggas from my turf with me, they wild
I got some bitches with ass, I got some bitches with class
Got a bitch right now, west side, hold the stash
If the windows are tinted, a quarter milli' a minute

Ain't leavin' shit in my pockets because I came here to spend it, gone
Ain't nothin' to a boss, yeah I spend that
(Spend that)

I ain't worried 'bout the cost, I spend that (Spend that)
Poppin' bottles in the club, yeah I spend that (Spend that)
I can buy the whole club, yeah I spend that
Throw that money, spend that dough
Throw that money, spend that dough
Throw that money, spend that dough
Throw that money, spend that dough
It's your birthday, girl, I'mma spend that
Cake, cake, cake, cake, get up in that
You set the bar so high they can't top that
Them other chicks ain't on your level, tell 'em "Stop that"
Black panties on, girl drop that
Look back at me, like I own that
Best pussy in the club and she know that
I make it rain so much, you gotta mop that
Mo' (Get a bottle) pop that (What?)
It's a celebration, girl, gon' toast that
Throw that money, spend that dough

Make it twerk, on that pole
Ain't nothin' to a boss, yeah I spend that (Spend that)

I ain't worried 'bout the cost, I spend that (Spend that)
Poppin' bottles in the club, yeah I spend that (Spend that)
I can buy the whole club, yeah I spend that
We got us one hit baby,
I don't think the haters understand so I'ma tease 'em with the remix
Jeezy, Kells, what we gon' do
Throw that money, spend that dough
Throw that money, spend that dough
Throw that money, spend that dough, what we gon' do
Throw that money, spend that dough
Throw that money, spend that dough
Throw that money, spend that dough
Throw that money, spend that dough
Throw that money, spend that dough
