

# Burning the Body

## Send More Paramedics

"This body may incriminate;  
I move that we incinerate.  
It's best that we remove all trace  
Of everything that's taken place.  
This dubious experiment,  
Whose ending was so violent:  
A chemical malign and dread  
Able to revive the dead." "General, with all due respect  
Your reasoning is incorrect  
This rash decision must be checked  
BURNING THE BODY  
We have no way to theorize  
What complications may arise  
I vehemently advise  
BURNING THE BODY  
If we let the fumes escape  
The problems that this may create  
Aren't easy to anticipate  
BURNING THE BODY  
These chemicals dissolved in rain  
Could seep into a thousand graves  
And trigger off a zombie plague!"  
BURNING THE BODY "Son, what makes you think you oughta  
Disobey a direct order?  
It's my responsibility  
To maintain total secrecy." "Rain  
Slashing down  
Filling boxes  
In the ground  
What's that scrabbling sound?  
I don't like this! Watching the flames rise  
Flinching as hope dies  
Stoking the furnace  
Ashes to ashes Now it's just too fucking late  
Cadavers rise consumed with hate  
Bodies soaked in strange compounds  
The children of the toxic cloud! Now down by the cemetery  
A hideous emergency  
Beginnings of catastrophe

**BURNING THE BODY**

On the freeway drivers panic  
Zombies stumble through the traffic  
Scent of brain-meat makes them manic

**BURNING THE BODY**

Now on every radio-station  
Bulletins broadcast to the nation

Briefing on the situation

**BURNING THE BODY**

The whole world is convulsed in flame  
And only we can take the blame  
We've made a terrible mistake

**BURNING THE BODY**
