

Loungin' (feat. Donald Byrd)

Guru

G TOP - GRU... - Guru Lyrics - Loungin Lyrics Yea I'm loungin' I got my man Donald Byrd

I wanna give a big shout out to my little man Miko he's 2 years old

He's away visiting his grandmom but I miss him dearly Check it out

If I rhyme this you will find this situation shall advance

You could take a glance or dance

Elevator lyrics to arouse the crowd

Now tell me who's the man to show you how

Many legacies of brothers who get buzzy

And I do it fluid til the suckers get dizzy

Saying peace to the blackbirds 125th street

And check the flow that's unique

For loungin', mellow out and just loungin'

Loungin', loungin', mellow out and just loungin' Can't refuse this, never lose this, it's the choice this

'Cause my voice is the smoothest

Dominating to your boys 'cause I've been around doing work

And sold tons of others jerk

Donald Byrd word on the track, quite exact

Giving you the format, Jack

See we gotta pave the way and display

How to loungin', loungin'

Mellow out and just loungin'

Loungin', loungin', mellow out and just loungin' Peace to the pioneers but I gotta try to clear

My throat, check out what I wrote

You can't tap into this unless you know the roots

Word shoe like light absolute

For real so now you gotta know the deal

For loungin', just loungin', mellow out and just loungin'

Loungin', loungin' mellow out, check it ou and loungin' Loungin', loungin', mellow out and just loungin'

Loungin', loungin', peace to Brooklyn where I live Realistic, kind of mystic when I kick this

You should witness the slickness

Of the hornplayer and the dope rhymesayer

Quite emotional and inspirational

Philisophical and yes very logical

Teaching you the method for loungin' Everybody knows they have times when they wanna just lay back

kick their feet up, y'know

listen to some good music and just lounge

That's right, I said lounge
