

# Andre

## JoJo

(Chorus)

He always fly as he wanna be

Cool than a mother

The girls always lookin'

but he's just my lover

Andre, A-A-A-A-A Andre

Love how you go your own waySome people think he's strange

But he'd never try to hide it

Diamond in the rough

And that's just how I like it

That's my Andre A-A-A-A-A Andre

Love how you go your own wayVerse 1:He wears a leather jacket in June

Got a convo straight to the moon

He's the fire that you can't contain

I get weak just for saying his nameSo quiet

Raspberry bret

No friends but he came to me

See he got his own rules to the game

After him I'll never be the sameHook:

When we get lifted

As the night gets nearer

Vibe gets heavy

And the clothes get wetter

I'm a sucker for a guy with a beautiful mind

And he's all mine(Repeat Chorus)Verse 2:See my man make you wanna invest

Got my heart beatin' outta my chest

And he sounds like jazz to me

Like he swam right outta my dreamsAnd I love how he go with the flow

Just chillin' and not pressin' the fish bowl

And I know it sounds kind of strange

It's a love that you can't explainHook:

When we get lifted

As the night gets nearer

Vibe gets heavy

And the clothes get wetter

I'm a sucker for a guy with a beautiful mind

And he's all mine(Repeat Chorus)Bridge:

Probably knew you in some other life

Maybe I was your man maybe you were my wife

But I wouldn't even question  
Wouldn't think twice  
It all makes perfect sense  
If ever you still not mine  
I still can love you from a distance to the end of time  
And I hope to be friends on down the line  
It all makes perfect sense(Repeat Chorus 2X)
