

# Can't Keep I Down

[Stephen Marley](#)

They just can't keep I down  
And I'll always be around, yeah  
Never will they get I down  
And I'll always be around I work real hard yeah  
Night and day  
Can't let no one just take that away I try and lie to do my best  
But some of them love  
To see me stoop to less They just can't keep I down  
And I'll always be around, yeah  
Never will they get I down  
And I'll always, you'll always  
She'll always, yeah Some would love to sweep  
Your feet off the ground  
Every time you get up  
They keep pushing you down The shortest way home  
Is the long way round  
The deepest rivers  
Never make a sound They just can't keep I down  
And I'll always be around, yes  
Never will they get I down  
And I'll always be around I say they just can't keep I down, eh  
And I'll always be around, eh  
To the powers of Jah, Jah, Jah, Jah, yeah [Repeat: x15]  
Can't keep I down They just can't keep I down  
No, I said they just keep I down
