Let's Face It

Matraca Berg

It's over, baby, let's face it, baby
I'm seldom on your mind
It's over, baby, let's face it
I won't think you unkind
Go softly when you, go easy when you
Go sometime in the nightIt's over, baby, let's face it
It happens all the time
I know for certain, you give me nothin'
The next day I can't find
I know it's raining, but nobody's changing
This water into wine
Cry softly when you talk to me
Our voices in the nightIt's over, baby, let's face it
It, happens all the time
You and I, fade to black
Walking down the railroad track
This time maybe we're not coming backIt's over, baby, let's face it, baby
The lights are getting low
It's over, baby, let's face it
Let's pay the man and go
Go softly when you, go easy when you
Leave sometime in the nightIt's over, baby, let's face it
It happens all the time
You and I, fade to black
Walking down the railroad track
This time maybe we're not coming back
