Wide Awake

Making April

My mistake
You should never be afraid to cut your losses
Now I know, now I know
It was mine to make
I was putting up a fight for worthless causes
Now I know just to let it goI was dying for our moment to arrive
Now I'm running further just to feel aliveDon't wanna get caught up
Dreaming of your love
cuz when I open my eyes
There's not a shot in this life
I might as well give up
and save all my good luck
for when I've got the extra change
You can move aside cuz now I'm wide awakeCalling out
You don't even pick it up on nights and weekends
Over and over
Talk about
Not giving up for all the wrongest reasons
Over and overHow was I misled for so much time?
When it's all been said and done I'll be alrightDon't wanna get caught up
Dreaming of your love
cuz when I open my eyes
There's not a shot in this life
I might as well give up
and save all my good luck
for when I've got the extra change
You can move aside cuz now I'm wide awakeBut is it getting any better yet?The word is out that I'm not giving in
and if you're ready by now, well, it's too late to beginDon't wanna get caught up
Dreaming of your love
cuz when I open my eyes
There's not a shot in this life
I might as well give up
and save all my good luck
for when I've got the extra change
You can move aside cuz now I'm wide awake
