

If Only

Kylie Minogue

It's in my scent
Was something I could pick up
I turned around
And the whole world spun for me
If I didn't tire of the places I wanna forget
So we're down, we're down If every easy way in,
Had an easy way out
If every step, up, had no step down
When I feel it, you can feel it
So we're down, we're down Two hearts, wanna left to be lonely, if only
True love, is waiting in the wings, if only
Two hearts, wanna left to be lonely, if only
True love, is waiting in the wings, only, if only
Only, if only If some things have never been said
If little lines in the sand could comfort me
And erase memories I need to forget
So we're down, we're down It's in my scent
Was something I could pick up
I turned around
And the whole world spun for me
When I feel it, you can feel it
You can feel it If I set you free
And you actually came back to me, take Two hearts, wanna left to be lonely, if only
True love, is waiting in the wings, if only
Two hearts, wanna left to be lonely, if only
True love, is waiting in the wings, only, if only Oh (oh)
If I set you free
And you actually came back to me (If only) Two hearts, wanna left to be lonely, if only
True love, is waiting in the wings, if only
Two hearts, wanna left to be lonely, if only
True love, is waiting in the wings, only, if only Only, if only
Only, if only
Oh (oh)
