

My Kind Of Girl (Charlie Brennan Remix)

Citizens!

You're my kind, of my kind, of my kind of girl
You're my kind, of my kind, of my kind of girl The needle's in the groove
She's got "International Feel" on endless repeat in her room
Later on the rain she says we're one and all the same
One and all the same, she says we're one and all the same I say You're me kind of girl
You're me kind of girl
You're me kind of girl
You're me kind of girl We take the battle on every night and day
We take on the world together
We take the battle on every night and day
You're my kind of, my kind of girl...
Ho-ho
You're my kind, of my kind, of my kind of girl No more will we float endlessly though the dark of the night
All your fears will fall away Stars collide
We will live forever you and I You're me kind of girl
You're me kind of girl
You're me kind of girl
You're me kind of girl We take the battle on every night and day
We take on the world together
We take the battle on every night and day
You're my kind of, my kind of girl You're me kind of girl
You're me kind of girl
You're me kind of girl
You're my kind of, my kind of girl And we wake up early so we can make love all day
We take on the world together
We take the battle on every night and day
You're my kind of, my kind of girl You're my kind, of my kind, of my kind of girl
You're my kind, of my kind, of my kind of girl
You're my kind, of my kind, of my kind of girl
You're my kind, of my kind, of my kind of girl
