When I Fall

Sam Phillips

We don't want lives of steel
We don't want hearts that feel
We want to live above it all
I feel you closing in a target on my skin
I think you'll be there when I fallWhen I fall, when I fall
When I fall, when I fall, when I fallWe might get out of time
We might connect our mind
We might land beyond the wall when I fallWhen I fall, when I fall
When I fall, when I fallI might give love to you
I might step right on through
Fear might keep me from it all
I climb so high to see you
But the ground just teases me
I think you'll be there when I fallWhen I fall, when I fall
When I fall, when I fall, when I fallWhen I fall, when I fall, when I fall
I'm burning when I fall, I fall
When I fall I'm amazed by it allControl is letting go
And I'm the last to know
We might land beyond the wall
I might give love to you
I might step right on through
I think you'll be there when I fallWhen I fall, when I fall
When I fall, when I fall, when I fallWhen I fall, when I fall
When I fall, when I fall, when I fallWhen I fall, when I fall
When I fall, when I fall, when I fallWhen I fall, when I fall
When I fall, when I fall, when I fallWhen I fall, when I fall
