

Legal High

The Mooney Suzuki

Once you were someone's young one
Or makin' your way through that stage
Or when you hunger for some kinda substance
But you're just unloved and underage

You knew you needed somethin'
Since you were just a young thing

I get live, gonna blow my speakers and my mind
Turn on and electrify
Gonna blow my speakers and my mind
Kinda feel like a legal high, yes I do

Stranded and bored in your room
But you need to feed your eager head
Found out how just a flippin' through
The back pages of a magazine you read, said

"This guitar and a microphone
Is all you need to grow your own"

I get live, gonna blow my speakers and my mind
Turn on and electrify
Gonna blow my speakers and my mind
Kinda feel like a legal high, like a legal high

I get live, gonna blow my speakers and my mind
Turn on and electrify
Gonna blow my speakers and my mind

I get live, gonna blow my speakers and my mind
Turn on and electrify
Gonna blow my speakers and my mind
Kinda feel like a legal high
