I Do It For You

Nick Lachey

Your pretty face is not enough
Behind your eyes I know you're lying
You think that love is all a bluff
You flash your smile and keep denying me
I want you to see
I need something more
Than you gave before
I want you to burn, I want you to steal
I want you to bleed and see how it feels
I want you to beg, I want you to crawl
Give more than you take and smile through it all
And know that everything you do
I do it for you, I do it for you
So your heart is broken and your tears are real
No word unspoken, see what you feel
The way you keep pretending it's such a crime
You've gotta give me what's mine
I want you to burn, I want you to steal

I want you to bleed and see how it feels
I want you to beg, I want you to crawl
Give more than you take and smile through it all
And know that everything you do
I do it for you, I do it for you
Your pretty face is not enough
Behind your eyes I know you're lying
I want you to burn, I want you to steal
I want you to bleed and see how it feels
I want you to beg, I want you to crawl
Give more than you take and smile through it all
You know I want you to burn
I want you to bleed, yeah
I just want you to beg, I want you to crawl
Give more than you take and smile through it all
And know that everything you do
Just know that everything you do, I do it for you
