Painkiller

Three Days Grace

You know you need a fix when you fall down
You know you need to find a way
To get you through another day
Let me be the one to numb you out
Let me be the one to hold you
Never gonna let you get awayThe shoulder you cry on
The dose that you die onI, I can be your painkiller, killer, killer
You'll love me till it's all over, over
'Cause I'm the shoulder you cry on
The dose that you die on
I, I can be your painkiller, killer, killerI know what you want so desperately
You know I'll give you one for free
Forever you're coming back to me
Now I'm gonna give you what you need
'Cause I know what you fiend on and what you lean on
And what you lean onThe shoulder you cry on
The dose that you die onI, I can be your painkiller, killer, killer
You'll love me till it's all over, over
'Cause I'm the shoulder you cry on
The dose that you die on
I, I can be your painkiller, killer, killerDid you find another cure?
Did you find another cure?I, I can be your painkiller, killer, killer
You'll love me till it's all over, over
'Cause I'm the shoulder you cry on
The dose that you die on
I, I can be your painkiller, killer, killer
