

Never Know (feat. Lastlings)

Golden Vessel

I've been waiting
Times replaying
am I just the same
Never would I know, never would I complain
how do you do this to me

You'll never know the way you did before
Seeing all the things you never saw oh
Too hard to let go
It's not the same when you in my head
Saying all the things that you never said oh
I'll never know

Oh I'm holding, holding
The only thing I know
Oh I'm holding, holding
The only thing I know

You'll never know the way you did before
Seeing all the things you never saw oh
Too hard to let go
It's not the same when you in my head
Saying all the things that you never said oh
I'll never know
