Sign of the Zodiac

Rasputina

Do you believe in the signs of the zodiac?
Haven't you found that the systems for planning always fail?
Can you avoid what gave daddy his heart attack?
Have you tried everything, anything, all to no avail?I know what you need
This will really work
In ancient times, if you were sick
They make you bleed
Oh, honey I know it hurtsLook all around you and notice you're not alone
We want to give you the courage to go a different way
Think of the love and attention we all have shown
What did we do when we heard? Well, we all came right awayI know what you need
This will really work
In ancient times, if you were sick
They make you bleed
Oh honey, I know it hurtsDo you believe in the signs of the zodiac?I know what you need
This will really work
In ancient times, if you were sick
They make you bleed
Oh honey, I know it hurtsDo you believe in the signs of the zodiac?
