

My Revelation (feat. Rockit)

Rockit Gaming

Verse 1:

We've been through hell and back that's a fact

Started off in Morgue City, then to Der
Eisendrache

Capsized collecting souls, cannibals in Zetsubou No Shima, Gorod Krovi we go

Oh DR. Monty lead us on our journey to the depths way down below

Oh how they haunt me doin' what ya taught me, pulled down by the undertoe

Chorus:

Out of time

Our demise

My revelation, my revelation

In disguise

Grab supplies

My revelation, My revelation

Agonize, till we die

My revelation, My revelation

Organize, finalize

My revelation, my revelation

Verse 2:

First there was Gobblegum sign me up cause im cravin one

Liquid divinium open doors cause im saving up

Stuck in a castle a hassle to find the pack-a-punch

A snowy mission with vicious dragons to overcome

Ship sinks on the brink, chemical botony

8 legged crawling freaks, killing brand new enemies

Nikolai in the city of blood, release the dragon and he burns it up

Out of time, our demise

My revelation, my revelation

In disguise, grab supplies

My revelation, my revelation

Agonize, till we die

My revelation, my revelation

Organize, finalize

My revelation, my revelation

Verse 3:

The stories almost over, revelation of disorder, the characters slaughtered everything for truth and honor, the
zombies taking over, revelation of disorder, this is the final chapter will we ever find the answer

Is this the end?

Is this the end?

My revelation, my revelation

Is this the end?

Is this the end?

My revelation, my revelation

Chorus:

Out of time, our demise

My revelation, my revelation

In disguise, grab supplies

My revelation, my revelation

Agonize, till we die

My revelation, my revelation

Organize, finalize

My revelation, my revelation

Verse 3 (again):

The stories almost over, revelation of disorder, the characters slaughtered everything for truth and honor, the
zombies taking over, revelation of disorder, this is the final chapter will we ever find the answer

Is this the end?

Is this the end?

My revelation, my revelation
